

Terrier Integrated Security Solution

India's largest solar energy company partners with Terrier to transform its security, fire & safety infrastructure.

Impact

49%

Reduction in operating cost

Rs 2.7 mn

Annual saving per farm

24X7

Control of fire & security

Zero

Dependency only on guards

100%

Real time risk mitigation

! Customer Challenge

- High On-Site guarding cost
- Delay in response time
- High risk of theft and fire
- Complete dependency on manpower
- Multiple service providers with no single accountability

⚙️ Terrier's Solution

- Terrier integrated the manned guarding, housekeeping staff of the farm with CCTV surveillance enabled with hi-tech video analytics. The new design made all four separate entities work in synchronization to achieve more reliable outcome.

- The smart electronic surveillance and video analytics increased their efficiency of on-site guarding and significantly decreased trespassing
- Terrier's CARE solution provided 24/7 security coverage through its real-time monitoring which was more cost-effective than Physical Guarding

On an average, companies have experienced 25% to 30% cost-efficiency through Terrier's Integrated Security Solution. However, the impact varies from sector to sector & security framework requirement.
